

Hunwick Primary School

Cloud Based Services Consent

We use a number of external service providers to provide curriculum services that we think will benefit the school and the pupils.

As a result of using these services data will be stored and/or transmitted between the school and the provider. Before using these services the school will undertake a risk assessment to ensure that the data will be handled in accordance with our policies and current data protection legislation. We will also restrict the amount of data that we store in the cloud to the minimum required to provide or use the service.

Additional information about the cloud service providers that we use will be published and updated on our website at <http://hunwickprimary.org.uk/privacy>

Before we share any information about your child we ask parents to provide consent to the use of these services by completing the form below. Parents may choose to not provide consent to any or all of the services. Where a parent chooses not to opt in to a service the school will do all that we reasonably can to provide an offline alternative.

If you do not complete the form we will assume that you have not given consent and your child's information will not be used on these services.

If you would like to opt in to individual services then please contact the school office or visit the privacy page to download the individual service consent form. <http://hunwickprimary.org.uk/privacy>

Cloud Services Consent Form

I consent to my child's data being used with the following cloud based services...
